

Town of Ajax Public Art

Title: The Storm

Artist: Amanda Berry and Henry Kortekaas & Associates Ltd.

Location:

Lion's Point
Ajax Waterfront
Ajax ON

Description:

The Storm is an interactive sculpture that captures one of the most dynamic, powerful and energetic moments in the seasonal cycle of Lake Ontario. The Storm is a collage of materials including a spiral of flowing native grass, waves of concrete, and a mounded landform spiraling up to the galvanized steel lightning strike. The spiral follows the Golden Section, a mathematical ratio that is present in many elements in the natural world. The galvanized metal structure symbolizes lightning stretching over the lake and the sails of the boats that move across the water. The Storm will change in appearance from different angles and at different times of the day or year.
